Soft Skills

- Effective Communication
- Adaptability
- Teamwork
- Problem Solving

📁 PROJECTS

Flipkart-like website, HTML, CSS, JavaScript

Live [🔗](#) | Github [🔗](#)

- Developed a basic e-commerce frontend replicating Flipkart using HTML, CSS, and JavaScript.
- Implemented product display, cart management, and user login with Local Storage for data persistence.
- Applied responsive design principles to ensure cross-device compatibility.
- Collaborated within a team environment to enhance frontend functionality and performance.

ModeSens-like website, HTML, CSS, JavaScript, API

Live [🔗](#) | Github [🔗](#)

- Built a responsive e-commerce web app using DummyJSON API to display trending fashion products.
- Implemented dynamic product listings, search functionality, add-to-cart with modal preview, and authentication modals.
- Managed real-time cart total calculation and improved UI with hover animations.
- Focused on clean, smooth, and responsive UI for enhanced user experience.
